Oct 25, 2018 Your right, but lots of people are already paranoid about Windows Update not working for some reason. It may be a good idea to have a backup of your Windows files ready in case it breaks completely (so you can transfer files to another computer). About the author PCVITA Nov 2, 2018 The reason the file can not be deleted is that most of the time Windows Update uses the same ports that the installation server uses. So it is probably just Windows Update interfering with the installation.
